

I Spy Pollinator Worksheet

Can you spot any of these pollinators at the Arboretum? Observe the shape and the color of the flowers. Pollinators are often small and may require careful observation to encounter.

Wasps

Bees

Flies

Birds

Butterflies

Beetles

HELPFUL HINT:

Having trouble finding pollinators? You may be walking too fast! Slow down and examine your surroundings. Look closely for flowers along the trail or look up in search of birds!
